# ~~Homework~~ Quiz 0: Using Gradescope

This homework will familiarize you with submission on Gradescope.
Follow the steps below EXACTLY to complete this assignment.

⓪ Accept my invitation to join our class on Gradescope.
The invitation will be in your Bmail.

(½) Download Genius Scan on your smartphone.
Alternatively, use any device capable of turning your work into a PDF (I only accept PDF submissions)

① Write three (3) things down on two pages of paper. The first page should have only one thing (label this clearly as "①"). The second page should have the remaining two (labelled "②" and "③").
These "things" can be whatever you like! Some ideas:
- Write me a letter about yourself.
- Write me a funny story.
- Draw me a picture.
- Tell me what kind of maths you like.

② Use Genius Scan to scan your work into a black-and-white PDF.
Alternatively, export your work to PDF from your device.

③ Navigate to Assignments on our Gradescope page. Go to submit "Homework 0".

④ Link "things" to their appropriate pages in your PDF upload using the Gradescope submission interface.

⑤ Click submit after double checking everything.

Now you're done! Take a short break, on me :)
